This brick home is even larger than it first appears, with four good sized bed rooms, all with ceiling fans and BIR's. The separate lounge leads into the open plan living and dining area which has new linoleum flooring, breakfast bar wall oven and built in microwave. Ducted cooling and gas heating plus exterior blinds take care of the climate control all year round. This home features verandas front and back, a paved entertainment area and lock up shed in the large landscaped backyard. All in a quiet court environment.
